

MINUTES OF THE 2014 VERNAL PLENARY SESSION OF THE PELHAM
ULTIMATE FRISBEE ASSOCIATION, HELD ON 3 JUNE.

The meeting was called to order at 22:30 hours following the arrival of that (unaccountably large) portion of the membership which, for reasons known only to itself, preferred the playing of Ultimate to the drinking of beer.

The first order of business, the Censure of Brother Dreisen, passed by acclamation.

Following a spirited floor fight, the credentials of Brothers Thuruthimattam and Mironchuk were approved despite neither having played a game of Ultimate in living memory.

The committee chairmen then gave their reports. Being absent, and his committee having been entirely inactive since formation, Brother Khanna was Censured by acclamation and unanimously reappointed Chairman of the Outreach Committee.

Brother McKinnon, Chairman of the Tripping Committee, was Commended for his exemplary work in organizing the outing to Randall's Island and Censured for the appalling weather which attended.

Some decision was made on the Rule of Whatever. Nobody remembers what it was and they wouldn't adhere to it if they did.

A discussion then ensued of the merits of PUFA securing the services of an intern for the summer. It was proposed that said intern would arrive at the AC at 5:00, line the field, provision an ice chest with Gatorade and arrange the presentation of freshly laundered and folded towels. It was further suggested that Acolyte Mazin might be well suited to this task, and that Brother Gold be appointed his "mentor". This discussion ended inconclusively when the arrival of a pitcher of beer distracted the deliberants.

Brother Pitkin, pleading on the flimsiest of pretexts (a diagnosis of "Third Stage Avascular Necrosis") requested that PUFA create an emeritus category of membership. This ploy was immediately decried as an attempt to secure an undeserved pension by a gimlet-eyed Brother Ruocco, and the motion was shouted down with Brother Pitkin being heatedly informed that the only way out of active PUFA membership is in a box.

A flurry of Censures and Commendations ensued:

- Brother Gracie was Censured for his untimely departure;
- Sister Sonya was Censured for non-attendance;

- Brother Gold was Commended for the complexity of his love life;
- The fury at Brother Pitkin not having subsided, he was ordered appear at all PUFA functions in lederhosen pending subsequent instructions to the contrary.
- Brother McKinnon was Censured for his now happily ended "left hand" phase.

Out of the blue, Brother Ruocco then coined the best phrase ever to emerge from the crucible that is a PUFA Plenary, to wit:

"No TK, no washee."

Your correspondent's notes grow incoherent at this point. Verbatim, they read:

"Dan, Seamus, interweb, facenet, The Tweeter, trending, Commendation, no retirement for Pitkin. Not 'retired', 'repurposed'".
